

## **COVID-19 Summer Plan At-A-Glance**

June 21, 2020 Version 1.0

COVID-19 has brought many changes to our world, and certainly to C3. As we move into summer it is critical that we do all we can to stay connected- COVID-19 is still impacting our ability to gather and connect, summer typically sees looser schedules, and churches tend to “slump” during summer rhythms. Here’s how we remain a healthy church over the summer:

### **Face Masks & Social Distancing**

During our Sunday gathering face masks are now **recommended but not required**. We will still be **maintaining 6 feet social distancing** standards as we create a safe environment in which to gather.

### **Sunday Service**

**Sunday gatherings** will be in person at 102 Maple and live-streaming on Facebook, c3denton.com, and YouTube. Our service will still include the familiar elements of worship, preaching, prayer, and C3Kids. We are asking our full congregation to continue to attend in person if they are able or online if need be.

**C3Kids** starts at 10a online only, **Sunday service** starts at 10:30a.

### **Communication**

Communication is crucial. We’ll continue using our **website, email, social media, Zoom, Church Center, and text messaging** in differing capacities. Through these platforms we will distribute resources, make updates, connect as a church, preach & teach, gather virtually in groups, and serve our community.

### **Pastoral Care**

Pastoral efforts are focused on **relational meetings** with all of the congregants to better check in on the spiritual and relational well being. It will be a great time to discuss struggles, address issues, and work together to promote unity during such a difficult time. **An elder will reach out to you** to set up a time to get together, we think this focused time will bear tremendous fruit.

### **Group Gatherings**

**Parishes and Life Transformation Groups** (and other off-campus groups) will be resuming in a manner that best meets the needs of the group as determined by that group’s leaders. **On-campus group** meetings will be determined on an individual basis and updates will be made. **Partner meetings** will continue to be on ZOOM.

### **Families**

Our families need to know that **we are thinking about them**. We are reaching out, connecting, and encouraging our many families via **personal calls** and specially curated **online content**.

### **Caring For The Vulnerable**

Caring for one another is essential during this time, and we are asking that everyone at C3 play a part in that effort. Our **Vulnerability Care team** is helping identify and care for those whose need during this time is especially great. Find the form on c3denton.com.
